**Gordon Mills**

**From:** "Gordon Mills" <gordon.nancy@comcast.net>
**To:** "niroop" <NSrivatsa@ci.lafayette.ca.us>
**Cc:** "Steve Falk" <sfalk@ci.lafayette.ca.us>
**Sent:** Wednesday, July 15, 2009 4:44 PM
**Subject:** Chevalier Restaurant

Hi Niroop:

Imagine our surprise today at 1:30 (our daily lunch time out) when Phillipe asked us if we were parked in the parking lot and when we said of course he had to tell us that we'd be towed away as mandated by the City, that only Flippers customers could park there. As we were
leaving we stepped into Flipper's and the owner verified it saying it was the City's fault. There was no one in Flipper's at the time by the way. What is going on? Is the City trying to put people out of business? Obviously there's nowhere else to park ( we checked the streets), so are you saying that Chevalier can only be open for dinner? Now that we've finally got a really good restaurant in that location it seems to me that Lafayette would welcome them, not punish them. There must be a reasonable explanation...please let us hear it!

Sincerely,

Nancy Mills

enclosure #15

Hi Nancy,

Steve Falk forwarded the message you sent to him and Niroop. I will be happy to explain what is going on.

The City has parking regulations that specify the number of parking spaces a building must provide based on the square footage of the building and the type of use. Type of use is considered because, for example, a restaurant requires more parking spaces per square foot than an industrial warehouse.

The building in which Chevalier is located does not have enough parking spaces if all business are open simultaneously. Chevalier's owners knew this when the signed the lease, which specified that they could only be open during evening hours when some of the other businesses are closed. However, the economic downturn reduced their evening business and, according to the business owners, threatened their viability. As a result, the owner asked the Council to allow Chevalier to be open during lunch as part of the recently adopted local stimulus package. They provided some information to indicate that there was some parking available during the lunch period. Some of the other businesses in the same building objected out of concern that their customers might not be able to find adequate parking during the lunch period.

The Council granted Chevalier's request on a trial basis with the provision that employees not park in the lot during the day and that they request the customers also park elsewhere. I do not believe that we said that the City would have anyone towed out of the private lot, that being an issue for the building manager.

From our perspective, the Council waived rules that Chevalier knew existed when they signed their lease. We did so at their request and in an effort to help them survive, not to drive them out of business.

We will evaluate the success of this program in September. Thanks for your note and for sharing your experience with us.

Best regards,

Don Tatzin

Mayor

Hi Nancy,

I don't know who told the owner and employees of Flippers to take pictures of parked cars. Maybe the building manager, but that is just a guess. This may also be an effort by Flippers to keep the spaces vacant.

The building manager did attend our last hearing on this matter and you can ask the City Clerk, Joanne Robbins, to tell you who he is by reviewing the minutes. If you wish, you can contact him or the owners of Chevalier will know who he is. There was some discussion during the hearing that some spaces may be used by parents picking up their children from the neighboring day-care facility.

We are hopeful that Chevalier will prosper and hope that being open for lunch has helped them. While we cannot dictate this outcome, the owner could consider providing valet parking which would probably allow more cars on the site.

Best regards,

Don

Hi Dan: I really appreciate your attention to our concerns. I'm glad to hear that the city won't be towing cars away, but the owner of Flippers said that he and his employees are supposed to take pictures of the cars whose occupants go to Chevalier and notify someone to tow them away. There is no where else to park, so yet another business will probably be forced to close. Sad. I'd rather see a good restaurant in that location than an industrial warehouse! But, again, thanks for your reply. Maybe Joe Campana will let us park there! Just kidding.

Nancy

Dear Lafayette City Council Members,

I would encourage you to extend the waiver of lunch time parking requirements for the Chevalier Restaurant.

As a Lafayette resident, a Lafayette business owner for twenty years, a Chamber of Commerce Board member and Lafayette Rotary Board member I meet a lot of community residents and have a feeling about what makes Lafayette a wonderful, vibrant city. Chevalier Restaurant and its owner, Philippe Chevalier are great additions to our city.

I have eaten both lunch and dinner there many times and have never experienced a parking problem. I find their food and service to be the best in Lafayette.

I think we all know that it is difficult to maintain a business in these troubled economic times. Chevalier, like most restaurants in town, needs to serve lunch in order to survive financially. For the sake of our city and Philippe and his family, please let him continue serving lunch.

Sincerely,

Jesse Wellen

**Thank you for a wonderful luncheon** Monday, June 22, 2009 1:02 PM

**From:** "John Talamo" <jjtalamo@earthlink.net>
**To:** pljchevalier@yahoo.com

Dear Chef Chevalier,

This note is to thank you and your staff for the delicious luncheon that my daughters and I recently enjoyed together at your restaurant. It was meant to be a celebration, so menu and ambiance were very important.

Having visited Chevalier several times for dinner, we were very happy to discover that you are now open to serve lunch. Your restaurant always provides the ideal blend of superb food, excellent service, and comfortable location that has been difficult to find locally, especially at midday. Also, our concerns about parking were short-lived, as we were able to park within your lot in one of the spaces designated for longer time-of-use.

In short, thanks to all of you for a memorable experience – one that we will talk about for a long time. We look forward to our next visit, and are glad that we, and our friends, can now make our reservations for lunch as well as for dinner.

Best regards,

The John Talamo Family

I am writing to support the Chevalier restaurant's lunch service. Since they have arrived in our community they have been very active in support of all things Lafayette.. They opened their doors for the Shop Lafayette First campaign celebration and were very gracious to those who attended. They are a small place very conveniently located to downtown - a great place to have a lovely lunch in their garden. I feel the city of Lafayette needs to support Chevalier as Chevalier has tried to support the city. My husband and I have enjoyed dinners in their garden since they opened and look forward to lunch in the future. I sincerely hope we have room for all who want to become an active part of our city. ar Philippe
As a local business couple we are delighted you have expanded to lunch.

First as you know, I have traveled around the World for the last 40 years in business and as a professional athlete and I do know that you put out a product of very high quality. That is why we keep coming back since you opened.

I guess my background is relevant to mention, if anybody looks at this is.

I grew up in the Tourism Industry in Europe, got an Hotel and Restaurant education from the University of Denver where I graduated with honors.
I ran the marketing department for The Winter Park Ski Area in Colorado (one of the top 5 ski areas in the US) Skied competitively all over the World for 20 years on the World cup and World Pro Skiing Tour.. And was a 2 X Olympian for Norway.

I had for French sponsors for 12 years, and France was my base during this period, my girlfriend's father was part of the Guide Michelin, the premier rater of Hotels and Restaurants World Wide, I believe in this period I eat at 12 of the 19 3 Star rated restaurants in France.

This is not at all to brag but for you to understand the context form which I am talking.

Second, we eat at every new restaurant that comes to our general area. Unfortunately very few of them has a consistent high quality of food , service and ambiance. Very often I believe it comes from the simple fact that a lot of people think it is glamorous to open a restaurant, but their background is too thin or they might not be solidly enough capitalized. This downturn will be and has already been a real test for many restaurant operators.

This is why it is important for our local authorities to be able to differentiate between high quality operations , like The Chevalier Restaurant, and weaker lower quality operators.

To be. Able for you to get a stable enough business and to expand you clientele it is critical that you get a permanent lunch business. Only dinner with the rents you have to pay these days is not good enough for a healthy restaurant budget.

If you need a reference in this matter please feel free to have people call me.

Best regards

Yvonne and Otto Tschudi
